

We have a new Pastor  
We have many new members  
And haven't those children grown  
Now we need a new directory

September 15, 2011

Normally churches have companies known for producing church directories come to the church, take photos, and provide the directories free. However, they usually put on a hard sell for families to purchase their photos---photos that may not be very good and that we usually do not want. Our last directory was produced in-house with member photographers and a local printer. We propose to do this again, with a few differences.

Here is the process:

1. You may send in your own photos or have them taken between services in October.
  - a. Include all the family members you want in the directory.
  - b. Make the photo appropriate for the directory, humor is okay, but poor taste is not.
  - c. Be sure the photos are in focus - much can be Photoshopped, but not-out-of-focus mages.
  - d. Send your images to me attached to an email in any format you want--Jpeg, TIFF, RAW, etc.
  - e. You may also send or give me an actual printed photo.
2. If you do not want to send in your photos, during October between each service, we will be available to take your family photo.
3. Complete the enclosed form. This will insure correct names, addresses and numbers, and give the church a chance to update any out dated information. A box for the forms will be available at the welcome desk at church, or you may mail them in to the church.
4. We estimate the cost per directory to be from \$5 to \$10. Please submit, with your completed form, what you can to defray the cost to the church. It is most important that every family have at least one directory, whether or not a payment is made.
